SKILLS

ArchiCad 19, AutoCAD 2007, Artlantis 6, ADOBE Creative Suite 5, Microsoft Office 2007 / MAC and PC

Diverso Stainless Italian Cofee & Shop:
Apollonos Str. 2
42100 Trikala
Greece

The materials we used to build “Diverso” (Diversity) and its furniture are just this: diverse. From the tables made of iron constructions, hidden lights, white lacquered wood and black tinted glass to the bronze mirror & mdf wood, to unconventional surfaces made of plasterboards.

Diverzo Stainless Italian Cofee:
Kanouta & Korae Street
42100 Trikala
Greece

The materials we used to build "Diverzo" (Diversity) and its furniture are just this: diverse. From the tables made of iron constructions, hidden lights, white lacquered wood and black tinted glass to the bronze mirror & mdf wood next and behind the bar, to unconventional surfaces made of plaster-boards.

Toilets:

With light fixtures made by liquid metal, surrounded by bronze mirrors, and plasterboards.

Santa Maria Mexican Dinner
Oranien Str. 170
10999 Berlin
Germany

Santa Maria is Mexican Dinner/Coctail Bar in the heart of Kreuzberg.

We followed a very minimalistic and industrial design.

The walls are made of concrete, surrounded with hidden lights, and some spots lights.

The bars foundations are made of concrete as well, and on top of it you find some lacquer wood.

The stools at the bar are very basic metallic stand, with a leather sit.

The tables are wooden with a made of steel base. Then we have some very simple stools made of wood, painted in white.
